## PROJECTS

### TRAVOOD

#### Food ordering website

📅 Took me 3 days

- Engineered a dynamic food ordering website boasting advanced features such as search functionality, pagination, and secure user login. The responsive design ensures a seamless experience, while the added capability for users to edit and delete their own food listings enhances customization. This project underscores a blend of technical expertise and user-centric design, showcasing proficiency in delivering comprehensive and interactive web solutions.

- Using :
  - \*\*React.js\*\*
  - \*\*Tailwind CSS\*\*
  - \*\*Firebase\*\*
  - \*\*Daisy UI\*\*...and more animation libraries for that extra flair!  
On the backend, we've got you covered with:
  - \*\*Express.js\*\*
  - \*\*MongoDB\*\*
  - \*\*Node.js

### ContestHub

#### Contest Creation Platform

📅 Took me 5 days

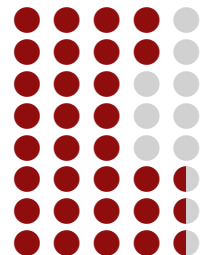

- Developed and launched a dynamic Contest Hub website, seamlessly blending functionality with a touch of fun. Users easily join contests via a secure login system with role-based access. Implemented robust payment methods for smooth transactions, enhancing overall user engagement across devices. The platform features a dynamic dashboard tailored for three distinct roles:
- Admin : \*\*Manages user accounts and oversees contest approvals.
- Creator:\*\* Empowered to create and manage contests with ease.
- Normal User: \*\*Enjoys a seamless participation experience in contests.
- Using :
  - \*\*React.js\*\*
  - \*\*Tailwind CSS\*\*
  - \*\*Firebase\*\*
  - \*\*Daisy UI\*\*On the backend,
  - \*\*Express.js\*\*
